Overview

Vyterro is a platform for acquisition entrepreneurs and searchers pursuing the acquisition of cash-flowing businesses. It brings together a private deal room, strategic partnerships, and advisory support for a select group of serious entrepreneurs interested in building long-term careers in business acquisition and ownership.

Acquiring a business is one of the most complex and consequential decisions a searcher will make. Vyterro brings institutional-level thinking and execution support to independent operators navigating that process, working alongside operators throughout the full acquisition lifecycle.

What Vyterro Does (Acquisition Lifecycle)

- Deal sourcing and opportunity evaluation
- Underwriting and deal analysis
- Negotiation strategy
- Transaction structuring
- Due diligence coordination
- Lender and capital coordination
- Closing preparation and execution
- Transition and post-close support

The Vyterro Platform — Three Offerings

CORE OFFER

Deal Room

Private, small-group program (~12–15 members) for serious searchers actively pursuing acquisitions. Weekly deal discussions, peer collaboration, direct advisory access. \$2,000/month, month-to-month, application required.

EQUITY MODEL

Partnership

Vyterro works directly alongside a searcher on a specific acquisition as a true partner — sourcing, structuring, diligence, financing, post-close. 30% equity, no monthly fee. Selective, interview required.

1:1

Advisory

Structured 1:1 support for searchers outside the Deal Room or Partnership track. \$450/hour, capped monthly hours, scheduled calls only. Limited overflow availability.

Vyterro is intentionally selective — it works with a small number of searchers each year who demonstrate discipline, capability, and long-term ambition. All three offerings require an application.

The Deal Room is the core of the Vyterro platform: a small, curated group of searchers who are actively looking for a business and want to get better at executing. Members don't need to have bought a business before, but should already understand how acquisitions work and be actively working toward one. It is not a passive group.

What's Included

- **Weekly call** — real deals (yours, other members', and Vyterro's own) covering structuring, negotiating, diligence, key decision milestones, and market dynamics; higher-leverage topics than beginner-level courses.
- **Direct access** to the founder via Slack, voice notes, and Loom videos.
- **Small curated group** — learning from other members in real, live deals; high-caliber network.
- **Templates, frameworks & checklists** — the actual tools used day-to-day, built to flex for creative deal structures.
- **Network access** — lenders, attorneys, diligence providers, recruiters, and post-closing third parties.

WHO IT'S FOR

- Actively searching for a business
- Understands the basics of acquisitions and how deals work
- Trying to get better at evaluating, structuring, and executing
- Sees this as a long-term path (multiple deals, roll-ups, investing)

WHO IT'S NOT FOR

- People just exploring the idea
- Passive investors
- Anyone not actively working toward a deal

Cost & Structure

ITEM	DETAIL
Core membership	\$2,000/month, month-to-month to start; price increases as the room fills
1:1 calls (add-on)	\$450/hour, dedicated time on top of the core offer
Deal sourcing (add-on, selective)	Application/capacity based; fees are hard costs + commission-based finder's fee + equity kicker. Not guaranteed, not for everyone.

Access is application-based. Vyterro keeps the group small and selective on purpose, screening for fit.

Vyterro Partnership

A true partnership model: Vyterro works alongside the searcher directly on the deal, treating it as partially its own. This includes sourcing strategy, search narrative refinement, deal evaluation, broker/seller calls, structuring, negotiation, diligence, bank/closing process support, transition support, and post-closing advisory.

Structure

- 30% equity — no monthly fee
- Vyterro does not invest capital and is not diluted by capital raises, but can help source capital
- Selective — interview required; fit matters given the long-term, equity nature of the arrangement

1:1 Advisory

For searchers who don't qualify for (or don't want) the Deal Room. Structured guidance on acquisition strategy, deal evaluation, and execution support.

- \$450/hour, capped monthly hours
- Scheduled calls only
- Very limited overflow availability — not a replacement for the Deal Room

Ideal Member Profile (Summary)

Vyterro selects for searchers who are disciplined, capable, and building a long-term career in acquisition and ownership — not one-time buyers or passive participants. Fit and self-motivation matter across all three offerings.

APPLY / INQUIRE

All three offerings (Deal Room, Partnership, Advisory) share one application: https://docs.google.com/forms/d/e/1FAIpQLSeOy9THtXVTCZ8Q-9CmcHegY3gv3dZ5bpgFv_kJGNx9gSnbvw/viewform

The application process is used to screen for fit — Vyterro intentionally works with a small number of searchers each year.
